

# Tomoyuki Fujii

Web Developer

## SUMMARY

Junior Front-End Developer with 1 year of learning experience in programming languages. I have a tenacity to solve problems and a truthfulness to convey each progress. I would like to be in a place where I can use my skills and grow up. I am all excited about working with new people and moments.

## EDUCATION

**Cornerstone International (CICCC)** - December 2022  
Web development co-op diploma

**Tokai University** - March 2018  
Department of Political Science and Economics(SPEM)

## PROJECTS

### *The country guide app*

This app consists of a search bar. The user enters the name of the country to be searched for in this input field and clicks on the Search button. On hitting search, we display a list of common information about that country, including an image of the country's flag.

### *The bank tracker app*

An expense tracker app allows you to track and categorize your spending. Your financial health will improve by keeping a daily record of your expenses by keeping track of receipts, bills, and other outgoing costs.(Mobile size is still making)

### *The twoot app*

Like Twitter, you can create accounts and posts and remember them, with a limit of 140 characters, and you can see when a post is created in the past.

## SKILLS

HTML5, CSS3, JavaScript

SCSS, Bootstrap CSS

React.js, jQuery, Heroku

Node.js, Firebase, GitHub
