Summary

Junior Front-end Developer with 1 year of experience in web development and a passion for user experience and interaction design and strength in creative and strategic thinking. Learning and growing as a developer are important to me and I am currently working on 3+ front-end projects. I am excellent at working in teams and enjoy collaboration.

Technical Specifications

Languages: HTML5, CSS3, JavaScript
Frameworks, Libraries: Node.js, React.js, Styled Components, React Router, Redux, Bootstrap, jQuery, SASS
Databases: SQL, MongoDB, Git

Projects

The post record app - August 2022 [Website](#) / [GitHub](#)

Like Twitter, you can create accounts and posts and remember them, with a limit of 140 characters, and you can see when a post is created in the past.

Technical specifications: HTML, CSS, JavaScript, React, Node.js

The bank tracker app - September 2022 [Website](#) / [GitHub](#)

An expense tracker app allows you to track and categorize your spending. Your financial health will improve by keeping a daily record.

Technical specifications: HTML, CSS, JavaScript, React, Node.js

The country guide app - July 2022 [Website](#) / [GitHub](#)

The user can type the country's name to search. Then, we display a list of common information about that country, including an image.

Technical specifications: HTML, CSS, SCSS, JavaScript

Education

Cornerstone International Community College - December 2022

Web development co-op diploma

Tokai University - March 2018

Bachelor of Political Science and Economics

Employment

Dunlop Sports Marketing Ltd. - Japan / April 2018 - June 2021
